The Hyego News : ays : - Missionaries now can have no reason to complain of their treatment by the Government, if the rumours so freely circulated in the native press are at all true. It seems that the Government have decided to permit the missionaries to travel freely in the interior and to undertake evangeliation work So far as we can gather this is not due to any 12492 sense of gratitude which the Japanese entertain for missionary labours, but simply to the fact that as the country has no established religion the authorities desire the emissaries of all greeds to have a free hand. But whatever the cause the missionaries have reason to refoleou for liberty to travel on the strangth of certificates from the Ministers of their own nationalities will enable them to pursue their labours under much less irksome conditions than those under which their efforts have previously been cribbed, cabined, and confined. It will be interesting to notowhether the additional privileges will increase the number of proselytes. There is no field of missionary labour so promising as Japan. The Japanese have practically abandoned their old creeds, in many ways they have adopted European customs and habits: will the Christian religion with its universal sympathies commend itself to the nd doctrines are so widely divergent P
